Publisher media kit

Independent Media Network Pty Ltd · Melbourne, Australia · November 2026

We are an independent Australian publisher building useful, data-driven content sites. Every page is built from real data (mapped places, official rates, search demand), not generic copy. Both sites below launched in October 2026 and are indexed by Google. We are early, so the numbers are small and exact: they come straight from Google Analytics 4 and Search Console.

Vic Tours · victours.com.au

A town-by-town guide to Victoria for Australians planning day trips, weekends away and road trips: where to stay, eat and play in each town.

65 town guides · **8** regions · **9** self-drive road-trip loops · **6,968** places mapped from open data, with opening hours built into each day plan.

29 Oct – 9 Nov	176	91	501	4

Searches already showing MyPayCalc on Google include: pay calculator australia, what tax bracket am i in australia, australian tax brackets.

How we would promote Commission Factory advertisers

- **Contextual links inside our own content**: hotel, car hire and experience links in the "stay" and "play" sections of each Vic Tours town guide and road-trip plan; relevant finance offers beside MyPayCalc results.
- **Labelled and disclosed**: affiliate links are marked as such and each site explains how it makes money.
- **No** coupon or cashback sites, **no** bidding on advertiser brand terms, **no** paid traffic to affiliate links, **no** unsolicited email.
- **Grow by search**: new pages are chosen by measured Google search demand (DataForSEO) and checked in Search Console.

Existing partners

Expedia Group, Viator, GetYourGuide, Klook, Discover Cars, Tradify and Fergus partner programmes, and Amazon Associates (US).
